Vessel Overview:

Suitable for world cruising with the family, the Sirena 64's spacious four stateroom layout features floor-to-ceiling glass windows, an abundance of natural light, and a tastefully refined interior by designer Tommaso Spadolini. Pairing Italian flair with Turkish craftsmanship, and groundbreaking naval architecture, the Sirena 64 is a stunning luxury yacht with huge aesthetic appeal and exploration capabilities. Design, Construction and Craftsmanship.

Design, Construction and Craftsmanship

Sirena 64 is a product of advanced construction processes, incorporating resin infusion for best fiber-to-resin content. Her higher strength and stability hybrid carbon superstructure, with lower weight, provides increased volume. This translates to generous interior layouts for a yacht her size.

"The Sirena 64 hull design has undergone rigorous testing. Her low drag, canoe-shaped body is capable of planning at high speed or semi-displacement cruising when in low fuel consumption mode. Equipped with gyroscopic stabilizers, it offers the ultimate in smooth cruising, and optimized comfort at anchor." _German Frers

Perfect balance between form and function

Groundbreaking engineering doesn't compromise the Sirena 64's sleek design that is both classic and modern. The sculptured lines of the Sirena 64 blend effortlessly with her high quality and refined style, where enjoyment is not only visual but also functional. Her Class A design, storage capacity and consumption efficiency delivers superior seaworthiness in all sea conditions. Combining comfort and safety, advanced technology and superior performance, the Sirena 64 harmoniously appeals to luxury yacht lovers.
