- Humphree active trim stabilization
- Air conditioning
- GPS: 3 X Simrad or Garmin (16 inch)
- VHF: Simrad NAIS 500, AIS with antenna
- Autopilot
- Parking camera system
- Wi-Fi antenna
- Inverter
- Underwater LED lights - 3 on stern
- Audio system upgrade: JL Audio (10 speakers + 1 subwoofer)

FOCUS 5X DESIGN

The Focus 5X will make its world debut at the Cannes Yachting Festival 2025, marking the introduction of a new flagship in the range.

The interior will be developed in close collaboration with Fabio Fantolino, it will combine contemporary aesthetics with practical elegance, setting a new standard for comfort at sea.

Each yacht will be built around the individual preferences of its owner, with the design team at Focus Motor Yachts guiding the customization process. For the first production orders, an extended scope of bespoke options will be available, giving early clients the opportunity to shape the yacht in truly unique ways.

The concepts presented in this document are an early preview and do not represent the final configuration.
