## Description

### 2024 HANOVER 305 SPORT EDITION

This 2024 Hanover 305 Batman Sport Edition goes beyond fully-loaded, with high-quality aftermarket upgrades that truly elevate the experience. Featuring a sleek black and orange paint scheme with grey, orange, and carbon fiber cushions, this boat has a stylish, standout look.

Powered by twin Mercury 225 engines, it's equipped with premium features like a bow thruster, electric anchor, SIMRAD GPS, and underwater lights. A rare highlight is the battery-operated air conditioning system—something you won't find on most boats in this class. It keeps the cabin cool and comfortable without the need for a bulky generator, leaving you with more storage space onboard.

With its spacious layout, there's plenty of room for lounging, entertaining, or taking in the views. The owner has added a full eisenglass enclosure for protection in any weather, as well as PPF and ceramic coating to preserve the boat's sharp paint job. The custom Fusion audio system, complete with an amplifier, six speakers, and a subwoofer, ensures great sound wherever you go.

Stored on a lift and kept out of the water, this boat has been meticulously maintained and is in like-new condition—plus, it comes with a range of valuable upgrades at a discounted price. This is your chance to own a truly upgraded Hanover 305.
